ROTIFER
CULTIVATION
SV12

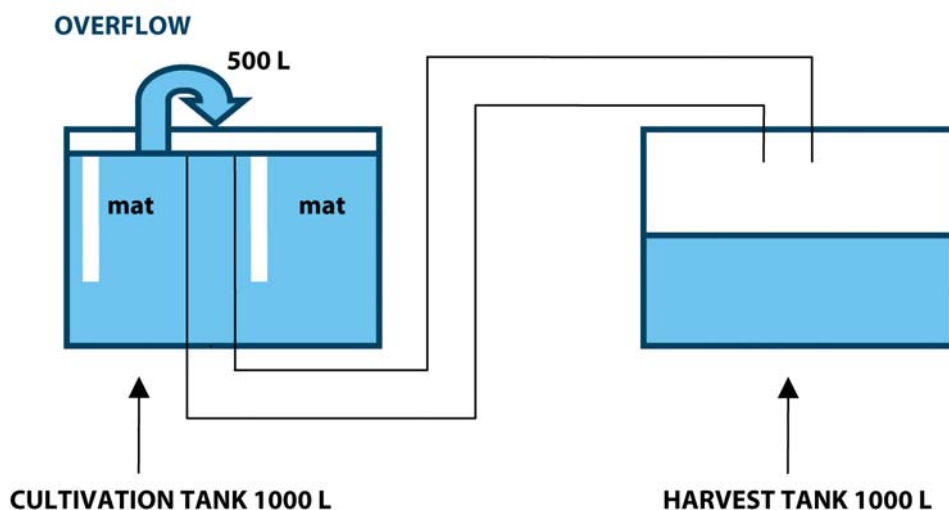

CONTINUOUS ROTIFER CULTIVATION WITH **SV12** *HIGH DENSITY

Rotifer	'S' type
Water Temperature	25 -28 deg C
Tank Size	1000 -2000 L (Round shaped)
Water Circulation	300 - 500 L per day
Rotifer Population	2000 - 4000 per ml
Feed	SUPER FRESH CHLORELLA V12 500 ml for 100million rotifers a day Feed every 2 hours or constantly
Air	200 L per min
Oxygen	5 L per min

Use of '**ROTIFER MAT**' is recommended to take detritus and ciliates out from rotifer tanks. Clean the mat(s) daily. Adjust the feeding volume depending on the rotifer conditions.
DO NOT OVERFEED - overfeeding may cause water pollution.

USAGE EXAMPLE

Tank Size	1000 L
Water Circulation	500 L per day
Rotifer Population	2000 per ml
Feed	Super Fresh Chlorella V12 5 L per day
Harvest	1 billion / day (2000 / ml x 500 L)

ROTIFER POPULATION : 2000 / ml
HARVEST : 1 billion / DAY
