

PTAqua
Feeding Global Aquaculture

ENRico

A COMPLETE
ENRICHMENT FOR
ARTEMIA AND
ROTIFERS

ENRico

**ALL-IN-ONE ENRICHMENT FOR
ARTEMIA AND ROTIFERS**

Product Features:

- Dry formula with a balanced nutritional content for Artemia and Rotifer enrichment
- Rich in DHA and Taurine for optimal larval development
- Enhanced levels of vitamins, minerals and aminoacids for increased larval robustness
- Using microencapsulation to preserve nutrients and guarantee higher water stability

ENRico

A COMPLETE
ENRICHMENT FOR
ARTEMIA AND
ROTIFERS

ENRico

Composition¹: Algal meal, krill meal, soy lecithin, vitamin C, taurine

ENRico - Analytical constituents (typical) ¹			
Crude protein, %	19.0	Vitamin A (added), IU/Kg	40 000
Crude fat, %	38.0	Vitamin D3 (added), IU/Kg	25 000
Crude fiber, %	2.0	Vitamin E (added), mg/Kg	6 000
Crude ash, %	16.0	Vitamin C (added), mg/Kg	35 000
Total phosphorus, %	1.7	ARA, %	0.1
Taurine, %	3.1	EPA, %	0.35
Se (added), mg/kg	0.8	DHA, %	14.0
I (added), mg/kg	880	n3-HUFA, %	14.35
Zn (added), mg/kg	40.0		

¹ The list of ingredients and analytical constituents are indicative. For exact information please refer to label. While every effort is made to ensure maximum constancy, the information provided in this sheet is only a guideline and SPAROS reserves the right to modify it without prior notice.

Mode of use:

Artemia: use 0.5 grams of ENRico per 1 million Artemia. To add 8-10 hours after hatching and harvest 8-14 hours after feeding. Mix in water up to 300 grams/L for 2-3 minutes with a blender.

Rotifers: use 2x0.12 grams of ENRico per 1 million rotifers. Enrich for 6 hours; meals at 0 and 3 hours. Mix in water up to 300 grams/L for 2-3 minutes with a blender.

Storage & Shelf life: store in a cool and dry place. Unopened, the product can be kept for three months after manufacture date. Once opened, the product should always be kept refrigerated and used within one month. For details on exact consumption date please refer to label.

Feed safety parameters	ENRico
Escherichia coli, CFU/g	< 1 x 10 ¹
Coagulase-positive Staphylococcus, CFU/g	< 1 x 10 ¹
Enterobacteriaceae, CFU/g	< 3 x 10 ²
Molds, CFU/g	< 1 x 10 ³
Yeasts, CFU/g	< 1 x 10 ³
Salmonella (in 25 g)	Absent

Compliance with the European Directive 2002/32/EC on undesirable substances in animal feed and subsequent amendments

Packaging	ENRico
Aluminum/PE bags	1 kg
